

International Project

6 weeks

For international students

10 ECTS

Why take part of the international project in the IUT of Saint-Etienne ?

Participating in an international project at the IUT (Institut Universitaire de Technologie) of Saint-Etienne that was made in place since 2021 ,can offer numerous benefits and opportunities for international student.

International projects also build language skills and provide opportunities for global networking, opening doors for future collaborations and professional opportunities.

At the same time, these projects develop transversal skills such as problem-solving and critical thinking. They also contribute to collaborative research initiatives, enriching students' academic experience.

In such great city like Saint-Etienne situated in a beautiful region (Rhône-Alpes) of south eastern France, 1 hour away from Lyon and 3 hour from Paris.

Buddy system

At IUT Saint-Etienne, we believe in fostering a supportive community. Our buddy system is designed to ensure that international students feel welcomed and supported from day one. Buddies provide valuable assistance, helping newcomers navigate campus life, understand local culture, and make a smooth transition into their academic journey.
